

WELCOME TO CLIMATHON IN SKÅNE 2020

FOOD AND CLIMATE

# Climathon

Join us to hack solutions for the climate. Climathon in Skåne 2020 will be an ideation process where you will meet people from different backgrounds that are all passionate about climate change. The food system contributes to 25-30 % of the global GHG emissions. The potential for change is enormous!

Together we will create innovative solutions to reduce the climate impact of the food system! Lets change the world together!

**WHEN:**
